[illegible][illegible]

The image displays three sequential screenshots of the Fisheries Information System (FIS) mobile application interface, illustrating the user flow from login to the main dashboard.

Left Screenshot (Login Screen): The screen features a blue header with the FIS logo and a navigation menu icon. Below the header, there is a large blue banner with the text "Welcome to the Fisheries Information System Of the Maldives". Underneath the banner, it says "Apply for fisheries related services online." and a prominent purple "LOGIN" button is highlighted with a red rectangular box.

Middle Screenshot (Test Vessel Screen): This screen is titled "Test Vessel" and displays a large QR code. Below the QR code is a printer icon. At the bottom, there is a table with two columns of data, including vessel IDs (P****A-01-08-O and F20250001) and dates (31/12/2024 and 01/01/2024). A red rectangular box highlights the bottom navigation bar, which contains a blue button with the text "FISHING VESSEL".

Right Screenshot (Main Dashboard): The dashboard is titled "TEST VESSEL" and displays a purple header with the vessel ID "P****A-01-08-O". Below the header, there is a grid of service icons, including a fishing boat, a person, a shopping cart, and a cube. A red rectangular box highlights the top navigation bar, which contains a blue button with the text "FISHING VESSEL".

Red arrows indicate the flow of the user journey: from the "LOGIN" button on the left screen to the "FISHING VESSEL" button on the middle screen, and then to the "FISHING VESSEL" button on the right screen.
