COMPONENT 2: Supporting Maldives as the Catalyst for Strengthened Regional Capacity for Fisheries Governance and Management

- 2.1. Improved and Innovative Implementation, Enforcement and Monitoring of Fisheries Management Plans and Sharing Results with SWIO Countries
- 2.2. Augmented Comprehensive Quarantine, Disease Surveillance and Management and Experience Sharing with SWIO Countries
- 2.3. Skills and Capacity Building for Supporting Enterprise Development in Fisheries Sector
- 2.4. Augmentation of Project Management Capacity of MoFOR including Building Capacities for Enhanced Regional Cooperation

COMPONENT 3: Enhanced Competitiveness and Private Sector Participation for improving Business Climate for Fisheries in Maldives and the South-West Indian Ocean Region

- 3.1. Decarbonization of the Fisheries Sector
- 3.2. Diversification/Expansion of Fisheries Sector through Facilitating Small and Medium Enterprise Businesses

B. OBJECTIVES OF ASSIGNMENT

The Project Management Unit (PMU) wishes to contract Fishery Assistant to support the science activities of component 2 (Improved and innovative implementation, enforcement and monitoring of fisheries management plans and sharing results with SWIO countries) of the Project. The objective of the assignment is to support the Research Assistant and Research and Science Specialist to implement the science activities to be undertaken under the component.

The relevant and respective activities of the Project include: (a) scientific monitoring of the tuna and non-tuna fisheries to contribute to the enhanced understanding of the fishery and stock status of the species; (b) scientific observation of fishing trips to understand the operational aspects of fishing trips in detail; (c) biological studies on key reef, tuna and live-bait species important for the Maldives fisheries; (d) resource assessment of key species in the reef associated fisheries; (e) population structure and connectivity of key reef and live-bait species; (f) documenting the fishing grounds and seasonality of tuna and non-tuna fisheries and (g) establish baseline population information for data limited invertebrate species.

The Fishery Assistant will be expected to report to the Research and Science Specialist and to work closely with the Research Assistant and other members of the PMU, technical staff of MoFOR and MMRI as well as with the project members from the World Bank.

C. OVERALL RESPONSIBILITY

The overall responsibilities of the Fishery Assistant include, but are not limited to the following:

1. Assist the Research Assistant in organizing field work and administrative tasks related to implementing the activities of the science component of the Project.
2. Conduct field visits to islands/landing sites and conduct sampling/data collection from the Maldives fisheries
3. Carry out fishery sampling at Male' market, Hulhumale' port or other landing sites as required
4. Participate in fishing trips to collect detailed operational data from the fisheries
5. Assist/carry out preparatory tasks to conduct the field sampling
6. Assist the Research Assistant in entering and compiling the data sets generated from field work ensuring all data are entered on a regular basis
7. Assist the trip leader in preparing/prepare field trip reports to summarize the activities of the field trip
8. Ensure field equipment is in good working condition prior to and after each field trip. Conduct literature research and prepare awareness and other materials when required.
9. Assist and work closely with the PMU in arranging workshops/trainings related to the activities of the component
10. Obtain, fix, preserve and assist in shipping biological and tissue samples
11. Assist the Research Assistant, Research and Science Specialist and the PMU in preparing updates and reporting documents to be submitted to the World Bank and the Project Steering Committee.
12. Any other task assigned by the Project may be necessary for the performance of the duties for the project.

D. QUALIFICATIONS AND EXPERIENCE

I. Minimum Requirements

- Completion of Secondary School Education (GCE O'Level)
- Fluent in written and spoken English and Dhivehi.
- Computer literacy; able to use Microsoft Office Word, Access, Excel, PowerPoint

Page: 3 of 5

Velaanaage, 7th Floor, Ameeru Ahmed Magu, Male, Republic of Maldives

- Ability to interact with multiple staff in the relevant agencies and respond to and liaise with stakeholders from industry and private sector.
- The successful individual must be willing to work for extended periods without direct supervision and travel to islands within the project area.
- Demonstrates openness to change and ability to manage complexities.
- Should have strong and proactive interpersonal communicative skills, experience in team leadership and participatory management.

II. Additional Skills

- Knowledge on key concepts of data and database management.
- Comfortable working onboard fishing vessels and grouper cages for long hours and in water activities if required.
- Good swimming and snorkeling skills.
- Advance Open Water diving certification will be an added advantage.

The short-listed candidate will be requested to participate in personal interviews, submit the names and contact details of personal referees who can attest to their ability.

The successful candidate must understand the objectives and delivery mechanisms of the project. S/he must be willing to work in a team, be able to travel to outer islands for field work, be comfortable in working on fishing vessels at sea and be flexible to emerging or changing conditions and undertake initiative to overcome challenges. S/he must be able to swim and snorkel as s/he will be travelling and be on sea going and fishing vessels for field work.

E. REPORTING REQUIREMENT

1. Report directly to the Research and Science Specialist on all aspects of Project Management throughout the duration of the contract unless otherwise advised by the Implementing Agency.
2. The Fishery Assistant is expected to report to work on weekdays from 0800 – 1400 hours other than public holidays and field days.
3. The Fishery Assistant shall provide all the necessary reports and updates to the Research and Science Specialist.
4. The Fishery Assistant is required to report to work in official attire except in preparation and during field work and when handling and processing fish, tissue or other biological samples.

F. SCHEDULE FOR THE ASSIGNMENT

Duration of the assignment is 36 months from the commencement of the works with potential extension based on performance. The successful candidate is expected to commence the services in June 2025.

This position is based at the Project Office of the Ministry of Fisheries and Ocean Resources in Male' with travel to Islands vessels or field visits as maybe required.

G. REMUNERATION AND OTHER BENEFITS

1. The Fishery Assistant shall be paid monthly remuneration of MVR 4465/- (Four Thousand Four Hundred and Sixty-Five Rufiyaa Only) for the services provided by the Fishery Assistant, except for unauthorized leave.
